

Community Outreach

Clean Sweeps

We provide door to door services for many communities to help their local companies and organizations properly dispose of their e-waste.

We hold Clean Sweeps several times each month and continue to support communities in their efforts to keep our earth clean.

Fundraising for Non-Profit

We provide our full service Recycling Event in cooperation with Non-Profit Organizations to help them raise funds for upcoming projects.

Drop-Offs

Drop-off is available at our facility for all who would like to recycle their electronic equipment.

About Us

Advanced Green Solutions is a full service universal waste recycling company.

Recycling made simple. We can recycle your computers, electronics, light bulbs, batteries, Non-PCB ballasts & thermostats. We can also provide document shredding & hard drive destruction.

Our courteous & knowledgeable staff will work with you to provide each service to meet your company's needs.

All components are recycled in an environmentally friendly way. None of our recycled components end up in landfills. We separate batteries and other components that would otherwise end up in landfills, illegal dump sites, or shipped abroad to become someone else's problem. But eventually this problem becomes everyone's problem.

Why Choose Us?

- *Equipment Removal*
- *Corporate Accounts*
- *Friendly courteous staff*
- *Environmentally friendly company who cares about generations to come*

Our Services

Computers & Electronics:

We offer 3 different levels of recycling to fit your needs. All 3 levels include a certificate of recycling.

Light Bulbs:

Light bulbs are recycled in a permitted facility. There are many different options for safe removal depending upon your company's needs.

Lamp Ballasts:

We accept Non-PCB ballasts for recycling. We offer a simple process and easy packaging for quick, efficient removal.

Batteries:

We accept a wide variety of batteries for recycling. All batteries are processed in a permitted facility to recover the metals in an environmentally friendly manner.

Thermostats:

We provide an easy and compliant process to recycle your mercury containing thermostats.

Document Shredding:

Protect your company's valuable information. Don't just secure your documents; help secure the environment as well. All documents are destroyed and the paper is recycled.

Computer Hard Drive Destruction:

We provide secure transportation of your hard drives to our facility to be destroyed.

Recycling Events:

We provide full service recycling events. This allows residents to properly dispose of their e-waste for a small fee. Our knowledgeable staff is on-site to answer any questions as well as provide receipts upon request.

We have a recycling team who specialize in residential and corporate events.

Customer Testimonials

"The Event Coordination and Field Service teams of Advanced Green Solutions has provided outstanding service for my company and my premier clients across the Mid-Atlantic Region. Advanced Green Solutions is the e-cycler of choice for Esquire Environmental Services, Inc."

Rod Kincaid
Vice President
Esquire Environmental Services, Inc.

"Our recycling event was a huge success. It was an excellent opportunity for our school, staff and parents to properly recycle e-waste. AGS was so easy to work with, flexible and excited to help our school."

Laura Edwards
Bethany Christian School

"The event went fantastic. You all did a terrific job, nothing could of made it any easier or better."

Patti Hinkle
Carbon County Solid Waste
